OUR MISSION & VISION

MISSION

- To minimize pollution in developing and semi-urban regions
- To promote eco-conscious industrial practices
- To support land development with environmental responsibility

VISION

To build a sustainable ecosystem where industrial growth and environmental protection go hand in hand.

LAND & DEVELOPMENT STRATEGY

The company actively works on:

- Identifying and developing unused or underutilized land
- Converting such land into productive and sustainable assets
- Managing large-scale land projects (approx. 2000 acres)

INDUSTRIAL SUPPORT & CERTIFICATION

Sweekyu global collaborates with factories and industries to:

- Ensure pollution control compliance
- Provide environmental safety guidance
- Issue certifications for eco-friendly operations

This helps industries maintain regulatory standards while improving their environmental impact.

BUSINESS MODEL & PROFIT STRATEGY

- The company generates revenue through land development projects
- Investment collection and structured financial planning
- Profit sharing and reinvestment into sustainable initiatives

PROJECT EXECUTION & SUCCESS

Sweekyu has successfully completed multiple projects by:

- Efficient land utilization
- Strategic industrial partnerships
- Sustainable implementation practices

Result: Successful project completion with long-term environmental and financial benefits.

ENVIRONMENTAL COMMITMENT

Sweekyu's primary objective is:

- To reduce pollution and ensure that all development activities are aligned with environmental safety standards.

The company aims to create a balance between:

- Economic growth
- Environmental protection

FUTURE OUTLOOK

Sweekyu global plans to expand its operations by:

- Increasing eco-friendly industrial collaborations
- Developing more sustainable land projects
- Strengthening its role as a leader in green development

Conclusion:

Sweekyu (Green Earth) stands as a forward-thinking organization dedicated to sustainable growth, environmental responsibility, and innovative land development. With strong leadership and a clear mission, the company is well-positioned to make a lasting impact on both industry and the environment.

BUSINESS MODEL OVERVIEW

Organizations operating in the high-value agriculture segment typically adopt a premium cultivation strategy focused on rare and exotic fruit varieties. The core components of this model include:

Strategic plantation of high-value and rare fruit crops

Long-term investment horizon to allow full maturation and optimal yield

Targeting international markets and high-net-worth consumer segments

Leveraging controlled farming practices to ensure superior quality

PREMIUM FRUIT PORTFOLIO

Some of the world's most exclusive and high-priced fruits include:

Yubari King Melon (Japan) – Often auctioned at exceptionally high prices

Ruby Roman Grapes – Premium-grade grapes with individual units valued at luxury pricing

Densuke Watermelon – A rare black watermelon positioned as a luxury fruit

Taiyo no Tamago Mango – High-grade mango known for its superior sweetness and quality

Sekai Ichi Apple – Renowned for its size, appearance, and premium positioning

REVENUE & PROFITABILITY DRIVERS

This business model generates significant returns through:

Premium Pricing Strategy – High-margin sales due to exclusivity and quality

Export-Oriented Distribution – Access to global luxury markets

Strong Brand Positioning – Establishing a reputation in the luxury agriculture segment

Low Volume, High Margin Approach – Limited production with maximized profitability per unit
